This is a great DLC and the main reason I bought it is because i wanted a train that Im very familiar with. As I live in Glasgow, this was the train for me as it was local plus the fact that it came with two lovely first/scotrail liveries. I really started getting into this train, especially because I had done all of the in-game training on how to operate it, and then I started to want to drive it on a route that was close to me aswell. So I looked up a glasgow rout and sure enough the one I get on very frequently was there but there was one thing...

That route came with the train so I had unneededly spent \u00a33 on this train when I couldve got it with the Glasgow-Edinburgh Waverly route, that way it comes with scenarios too.

So in conclusion:
GREAT train
GREAT liveries
AMAZING sounds
DISAPPOINTING interior

and...

BUY THE GLASGOW-EDINBURGH WAVERLY ROUTE INSTEAD BECAUSE:

GREAT train
GREAT route
GREAT senarios
UNBELIEVABLE value for money (Especially with 60% off!)

. Its quality. Few more options and polish will be great. Even the current form its well worth getting!. very enlightening game. Gawsh this game is bad. The gfx are uninspired, and lack in contrast; the sounds are just a few sfx samples mashed together with bad bg music sometimes, the controls suck, the story seems uninspired (though I didn't get very far before I was turned off too badly)...

This is a perfect example of how NOT to make a game. Don't buy. Don't take it even if it was free.. This game is dumb. There are no tutorials or tooltips whatsoever. I had to go to the store page to find out the winning conditions. Also don't build too quickly or else worms and meteorites will smite your buildings. If this looks interesting, go buy an actual management like Sim City or Tropico instead.

A brief and brilliant experience that is rewarding and thought provoking, highly recommended and I hope it gets expanded to a full game.. E.Wolf's Downloadable Content

I recommend this DLC. It is free so there is not really a reason to skip it. It adds a few nice customization options and I especially like the scope reticle.. Edit: I had a review written for their first released version, but Card Creator's updated so quickly I figured I'd just rewrite it now.

Glad I put my faith in this program early on, because it's jumped very quickly from a basic program fun to mess with for prototyping simple projects to a more serious contender among other software of its kind! The developers keep track of how their work on Card Creator is coming along on Trello (a website for project management) where anyone can go to look at and comment on their plans and progress, and I had even subscribed to this board, only to find that I was getting a ton of notifications from it because they're just working on it all the dang time! The interface is easy to work with, and bugs get squashed and features are added at a very nice pace. If this looks at all like something you're interested in, I definitely recommend it if you've got the extra bit of cash for it.. A few stand-out tracks that really lit up certain scenes in the game. For me, this purchase was worth it for "Revelations" alone.. Good paintjobs. Not much to say. This game is as simple as it seems (though it is pretty difficult on the higher stages) and the price is a little high for the kind of game it is, but if you can get it on sell then it's worth it. As others have already said, it has achievements and trading cards, so that essentially makes up for it even if you do end up paying full price.

The concept is pretty cool and the electro/retro music is a nice touch, so prepare to trip balls into the world of flowing text if you're willing to give this game a shot.. Don't waste your time buying this "Seasonal Pass". As my first-time consumer of a Seasonal Pass, my expectations where high and for good measure. After aggitating delays from Capcom, they finally deliver their release. To my surpise, I was sadly disappointed to see that this useless pass does nothing more then give you characters (which you can earn for free) and one Battle gear costume from each. It would be redeeming if they could at least give us the stages as well for free; although that wouldn't do much to put Capcom back in my good graces.

Well I'm lying, if they could give us all the battle gear (corresponding to each in-game fighter) in this pass... I'll keep my lips shut.. This is absolute banger.

We danced hardbass, wore g-strings, killed hundreds of mutants, zombies and weird\u2665\u2665\u2665\u2665\u2665spiders and defeated the actual devil.

I never had so much fun for 2 euros in my whole life.

Buy this. Like right now.
